CREATE A FUN & ENGAGING LEARNING ENVIRONMENT

Preschool teachers commonly advocate for a fun and engaging learning environment that prioritizes play over academics.

However, recent researchers and policymakers in early childhood education emphasize the importance of introducing academic learning early to ease the transition to reading and writing.

To achieve this balance and make learning enjoyable for children, educators are using tools like interactive whiteboards.

Our Childcare bundle not only provides the most suitable hardware for this environment but also includes:
“early education-focused training”.

WHY CHOOSE OUR ACA NEWLINE Q SERIES BUNDLE?

- ✓ **Ease of Use (+ Includes Training)**
Plug in and go - no more downloading software
